To whom it concerns

I am writing to you as Secretary of Clonmore GFC to express our concerns with regard to the current boundary divisions which we feel impact our representation within our local area/constituency. We are a rural club based in Carlow on the Wicklow border and in the Wicklow Electorate.

It was recently discuss at a monthly meeting, with regard to the locations of our representing TD's within our current constituency of Wicklow, the general feeling was that although these representatives when approached for assistance or advice were available the reality for us is that it is the local TD's within our County are the first general points of contact.

Recently we were seeking planning permission for a development to our existing Clubhouse and also an application for funding through the Sports Capital Program in which we were successful. In both of these we approached our local County TD's and County Councillors and not our constituency representatives.

In the event of any potential changes to the boundaries I wish to express our position in relation to the reinstatement of the Clonmore/Hacketstown area back into the Carlow constituency.

Is Mise
