

Sub 16/098

With regard to the above , I have lived in east meath for most of my life , and regardless of the administrative ease which putting my locality into the louth voting area achieves , i strenuously object to this . I have , and continue , to pay tax all of my working life , and it does not matter to me what costs etc are saved by being in the louth area , i am from meath , and i wish to be in the county of meath and the voting area of meath , it is my constitutional right .#
