

I am writing this to get the portion of the south of county Mayo that was bundled in with Galway West for general elections brought back into Mayo for future elections.

The changes made last time around put a very rural area into a mostly urbanised area. Most of Galway West is Galway City and Connemara one a city the other a tourist area. South Mayo is small farmers and small businesses, with very different issues to those in the Galway West constituency. Living in Shrule, most people didn't know the councillors they were voting for. I hope you consider returning Mayo to a full constituency.

Yours Sincerely,  
Tracey Flanagan
