

in last years general election the people of the lower Ormond region of North Tipperary were moved into the Offaly constituency. This has proved to be a farcical situation as our local Government is TIPPERARY but we are supposed to be represented at National Government by Offaly Deputies who have no interest in our locality other than the 10000 votes that's up for grabs at Election time. It's vital that we are moved back into the constituency of North Tipperary before the next General Election.
