

As an residents of the county of Tipperary we believe that the breaching of county boundaries should be reversed. i currently have to vote in offaly which I believe is not right and was advisable, it was stated that breaching county boundaries should be avoided where possible and i believe in this case it should of being avoided. the continuity with the constituencies was also broken by this change.

I am requesting that this is looked at again and that the constituencies are changed back to include county boundaries

regards

Monica Mckenna
