A chara

I write to express my full support for the Submission made by Cavan County Council in relation to the need to Reunite Co. Cavan for Dáil constituency purposes.

That Submission outlines the concerns of communities right throughout the county in relation to the dissatisfaction following the division of Cavan in 2012.

A sizeable part of my Municipal District is in the Sligo/Leitrim constituency and people in that area constantly complain to me that the constituency that was formed in 2012 does not provide for proper representation for their area. I fully agree with those sentiments.

As a Member of Cavan County Council I was very annoyed in the 2016 General Election that I could not vote for my own local representatives as I live in the part of my Parish that is in the Sligo/Leitrim constituency.

I hope that the Commission can give favourable consideration to the Council's Submission.

Mise, le meas

Philip Brady, MCC
